RAPID Partition Suite

800 Series & 900 Series

The new benchmark of strength and design reimaged

Introducing our newest partition suite...

**THE 800 SERIES – 100MM (to suit 64mm stud)
& THE 900 SERIES – 131MM (to suit 90mm stud)**

We have redesigned a new suite to cater to the needs of the ever-growing shop fitting and partitions market, with its new and improved robust design our latest addition will surely impress. Our 800 Series is designed 64mm studs application with 13mm plasterboard, While our 900 Series is for 90mm studs. These suites offer a straightforward and effective centre glazing option. Centre glazed is most commonly used glazing option in the market and is by far the easiest to work with for both fabricators and installers alike. These suites have a 14.4mm glazing pocket that can accommodate a wide range of glass options for whatever your project demands. There is also enough clearance within the frame dimensions for the ability to incorporate blinds and other privacy options thanks to the 100.7mm and 131mm framing.

- Gusset Joining System for both window/door frames and ceiling channel provides cleaner looking joins and seamless mitre intersections.

Features of our Partition Suite

- Glazing pocket suitable for 6mm to 10mm glass
- Glazing pocket offers flexibility of either a captive wedge or silicone glazing options
- Plasterboard options:

800 Series

- 13mm plasterboard + 64mm studs + 13mm plasterboard
- 2x skin 13mm plasterboard + 51mm studs + 13mm plasterboard

900 Series

- 13mm plasterboard + 90mm studs + 13mm plasterboard
- Offers Door Stop options to suit 35mm, 38mm and 45mm doors
